To Whom It May Concern,

It is my pleasure to recommend Emily Zhang for a position as a CAD designer at your company. I worked with Emily for approximately three years at DCI Engineers. During that time, we worked on many projects together, ranging from mixed use to high rise to tenant improvements. Emily was also the lead designer on a mixed-use podium project that I managed.

I found Emily to be highly motivated and skilled at drafting plans and details using several construction types, including wood, steel, cold-formed steel, and concrete. She recognized conflicts between the architectural and structural drawings and communicated those clearly to the engineering team. She also worked efficiently and met the project deadlines, even if she was required to work late. Finally, Emily always had a positive attitude and was respected by other engineers and her fellow designers.

Emily's performance, work ethic, and positive attitude at DCI Engineers makes me confident that she would be a valuable addition to your company. If I can be of any further assistance, or provide you with any further information about Emily, please do not hesitate to call me at 425-818-1675.

Sincerely,

Danielle Jacobs
Project Engineer
